EDUCATION

Vellore Institute of Technology, Amaravati

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 8.83

Sri Bhavishya Junior College, Vijayawada

2020 – 2022

Intermediate, BIEAP

94.4%

Nalanda Vidya Niketan, Vijayawada

2020

10th Standard, CBSE

90.4%

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL

Frontend: HTML, CSS, Tailwind CSS, React, Next.js

Backend & Databases: Node.js, Express.js, FastAPI, PostgreSQL

Cloud & Tools: Git, GitHub Actions, Docker, AWS

PROJECTS

Containerized Online Coding Platform | *React, Express.js, PostgreSQL, Docker, AWS EC2*

Live | GitHub

- Built a scalable coding platform supporting problem solving, progress tracking, and submission history.
- Designed RESTful backend services and integrated Judge0 sandbox for secure, isolated multi-language code execution with real-time output handling.
- Containerized services using Docker and implemented CI/CD pipelines with GitHub Actions for automated building, testing, and deployment on AWS EC2.

Agile Project Management Platform | *Next.js, TypeScript, PostgreSQL*

Live | GitHub

- Developed a full-stack project management platform with Kanban boards for efficient task tracking and workflow management.
- Implemented issue tracking system with priority levels, task assignment, and status-based workflows.
- Built secure REST APIs and authentication using JWT to manage users, projects, and real-time task updates with Socket.IO integration.

Automated Cobb Angle Measurement Using Deep Learning | *YOLO, React, FastAPI*

Live | GitHub

- Developed an scoliosis detection pipeline using YOLOv11 Pose for vertebra detection from X-ray images.
- Implemented automated Cobb angle estimation using geometric tangent-line analysis for accurate scoliosis severity assessment.
- Built a FastAPI inference backend for image upload, model prediction, and real-time angle computation; integrated with a React frontend for seamless clinical workflow.

OPEN SOURCE EXPERIENCE

GSSoC 2026 (GirlScript Summer of Code)

- Contributed to open-source projects under the AI/ Agents and Open Source tracks through feature implementations, bug fixes, and accessibility improvements.
- Collaborated with maintainers through GitHub Issues, Pull Requests, Code Reviews, and open-source contribution workflows.
- Currently ranked among the top 1% contributors globally in GSSoC 2026 out of 42,000+ participants.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate, Amazon Web Services

Next.js Fundamentals, v4, Frontend Masters
